

## 3.5 RATES

### 3.5.1 Assessment of the Social and Economic Effects of the Rating Policy and Declaration

Rates to be levied on property owners by the Council in 2017-18 remain affordable and at very low levels compared to other Local Government jurisdictions in Australia. Further, rates levied on Territory Housing dwellings are paid in the first instance by Territory Housing, so have no direct financial impact on public housing tenants. As such, the Council does not anticipate any detrimental socio-economic impact from levying rates in 2017-18.

Additionally, rates revenue remains a small proportion of the Council's total budget, at less than 5% of the total. This underlies the fact that the Council is effective in securing significant non-rate revenue for all of its communities, including Government grants and contracts. This allows for services and employment opportunities to be delivered to Council residents far above what the rates revenue would alone enable, resulting in a net positive socio-economic impact for residents

### 3.5.2 Rates Declaration Summary 2017-2018 Summary

The following rates declaration has been prepared as per section 158 of the *Local Government Act*. Adjustments have been made to incorporate the Minister for Local Government's approved conditional rating levies for mining and pastoral leases.

The rates declaration for 2017-18 will levy approx. \$992,115.61 in rates revenue. The Waste Collection charges would be approx. \$ 818,692.80 in 2017-18. Council has also declared a special rate this year to cover for the Animal Health Management in various communities and will be collecting \$62,000.00.

Please note that revenue estimates for pastoral and mining leases are based on accepted rates proposal by the Minister for Housing and Community Development.
